This is the thank you card from Kathy and Shawn Spradley when we shot the HDS video 7/09

Joey,

I'm in Houston on business but wanted to tell you how over the top successful the video is! My phone has been ringing nonstop and my email is blowing up. I hope you know what a special place you have in our hearts. You are a hero and we are all amazed.

Love,
Kathy

Kathryn Spradley

Joey,

Kathy is in route to Houston, so I wanted to let you know that we have both made the video public on our pages, so feel free to do the same. I embedded the code on a page on our website so it would come through with the HDS background. You did a fabulous job, we couldn't be happier. Everywhere we've posted it we have put links to you as well, so hopefully something will come out of it for you. We'll keep our fingers crossed.

Joey,

I can't seem to find words that adequately express what a touching job you have done. It is perfect. It is always amazing to me when people come into our lives at just the right moment. Kathy and Shawn are so pleased and appreciative. The way you entwined the footage of Holton and the photos of Hudson and Nash was so well done. It was very informative but personal. Thank you doesn't cover how much you have touched our hearts. You have brought laughter and tears in the story you told. A job well done.

Thank you,
Darlene Florence, Gramma
